

Emergency Supplies

Talk to your co-workers about what emergency supplies the company can feasibly provide, if any, and which ones individuals should consider keeping on hand. Recommended emergency supplies include the following:

	Water. Amounts for portable kits will vary. Individuals should determine what amount they are able to both store comfortably and to transport to other locations. If it is feasible, store one gallon of water per person per day, for drinking and sanitation.
	Food. At least a three-day supply of non-perishable food.
	Battery-powered radio and extra batteries
	Flashlight and extra batteries
	First Aid kit
	Whistle to signal for help
	Dust or filter masks , readily available in hardware stores, which are rated based on how small a particle they filter.
	Moist towelettes for sanitation
	Wrench or pliers to turn off utilities
	Can opener for food (if kit contains canned food)
	Plastic sheeting and duct tape to "seal the room"
	Garbage bags and plastic ties for personal sanitation
